Kenchi Tachibana
EXILE / EXILE THE SECOND

Connecting With People From Around The World.

We Will Develop Entertainment As a member of EXILE I was fortunate to perform in China during our 2010 tour, and I was awestruck by the power and possibilities China presented. Although I am Japanese, I don't see the world as divided by countries. We are all human, and taking into account all the experiences in my life so far, I hope to move forward and create entertainment with people from all over the world.

LDH ASIA will have endless opportunities under the new corporate structure of LDH, and as we move forward in this market I feel more and more motivated to share the EXILE spirit throughout Asia. We are given the unique opportunity to show the world not only about Japan but share the LDH philosophy of "Love, Dream, Happiness" across Asia.

Regardless Of Country,
Our Ultimate Goal Is To Connect People.
The World Is One Through Entertainment & Music.
