To LDH, “Entertainment” is an investment in our body. One of the most important things that our body can create is “food.” We see food as it’s own unique culture, a type of entertainment, and we strive to bring this to everyone. In bringing “food” to the table we first need “ingredients” to create from. Our hope is that not only now, but in the future, we are able to bring the finest, most delicious, healthiest ingredients to positively impact your life and cooking. Now, LDH has formed a new group to focus on bringing a new sense of feeling to “food” through farming. LDH farm is but another form of the LDH brand of entertainment.

## RIKACO TABLE

Sitting down and making time to join together with family, friends and those important in your life over delicious food is what RIKACO calls a “meal.” To create this important moment ingredients that represent the genuine connection you have with these people is very important. The cultivation, flavour and locale of these ingredients all come into play to create the perfect combination, and it is these vegetables that RIKACO TABLE is proud to serve.
