Connect With The World Create An "ONLY ONE" System

ENTERTAINMENT

LDH Strives to create a creative world without borders for artists and producers to collaborate on timeless, game changing music. Based out of three continents: Asia, USA, and Europe with four bases located in Tokyo, Amsterdam, Los Angeles, and Shanghai we aim for the compositions coming out of LDH to become the industry standard. Thus, LDH World production will create music that everyone in the world will grow to love by first creating a realm where an artist can both have the greatest entry into the industry possible as well as a viable exit at times when the pressure becomes overwhelming. We aim to build a seamless system that integrates development and management of artists with production of the music and live experience. We also will vigorously protect the rights of our artists. At LDH the artist come first. We believe this to be integral to growing this company as well as being positive contributors to the arts around the world.
