Naoki Kobayashi
EXILE / J Soul Brothers III

With All People Of The World We Will Create Memorable Entertainment.

Through my experience with both EXILE and J Soul Brothers III – I have witnessed the potential of entertainment – I have felt it reverberate through my body. I was originally inspired by American dance, culture and entertainment. No doubt, this is the original inspiration of many LDH members and so three years ago we opened EXPG in New York. Our mission at both LDH USA and EXPG in New York is to create an environment where we can

accelerate growth for LDH in the US entertainment industry. My dream is to be a contender in the American entertainment industry. However, my aspiration is to create a platform in which we can all achieve our own individual dreams in America as well as throughout the world.
